RCRA FACILITY ASSESSMENT, EVERGREEN OIL INC., NEWARK FACILITY,
EPA ID #CAD980887418

Dear Mr. Wahbeh:

Pursuant to Section 3004(u) of the Resources Conservation and Recovery Act (RCRA) as amended by the Hazardous and Solid Waste Amendments, and Section 25358.1 of the California Health and Safety Code (HSC), the Department of Toxic Substances Control (DTSC) has completed a RCRA Facility Assessment (RFA). The purpose of the RFA is to identify and gather information on releases or potential releases of hazardous waste or constituents at RCRA facilities, and to make preliminary determinations regarding releases of concern, and the need for further actions.

Solid Waste Management Units and Areas of Concern identified in the RFA has to be investigated in order to determine whether past releases have impacted the environment, and to prevent or minimize future releases.

DTSC would be pleased to have the opportunity to meet with you, should you have questions regarding the RFA or this letter. Please contact Mr. Mike Eshaghian at (818) 551-2926.

Sincerely,

Allan Plaza, P.E.
Unit Chief
Southern California Permitting and Corrective Action Branch
